\*\*\*\*\*

**COMPILED BY:** Certificate of Need Program, Department of Health and Senior Services.

\* No beds were licensed in these counties during the survey period.

\*\* Licensed and available beds as reported on the last Division of Regulation and Licensure (DRL) survey, whereas the inventory of beds reflects the current DRL/CONP data which may be different than the DRL survey due to license changes.

\*\*\* The population-based number is the maximum bed need (\*\*is the 'cap').

Occupancy Rates are based on actual utilization of existing licensed and available beds in each county reported by residential care and assisted living facilities on Quarterly DRL Surveys of June 2014, September 2014, December 2014, March 2015.

\*\*\*\* Year 2020 projected net need is based on projections of the population age 65 and over of each county for the year 2020 (as estimated by the State Demographer) multiplied by a bed need rate of 0.025 minus the current total supply of licensed and CON approved beds.

\*\*\*\*\* Available beds include 15 'sold' beds that must be shown as 'licensed and available' for two years following the date they were closed, but are actually not licensed or available for occupancy thus reducing 'available' beds to 21,010 and resulting in 2,171 'unavailable' beds.
